Remember to let the tester know:

"Thanks for helping. I'll ask you to complete four tasks without guidance so I can see how intuitive the app feels currently."

"Think out loud! tell me what you expect to happen as you go."

(Krug): If they hesitate, ask "What do you think this button does?" or "Where would you look to change volume?"

Task	Description	Task Succeeded (Y/N)	Time(sec)	Clicks/Errors	Tester Comments
1	Play the "Floating in Stillness" segment (45–90s).	Y	5	1/0	N/A
2	In under 60 seconds, add a new segment titled "The Sunrise Cometh."	Y	48	3/1	Beginning of the new audio segment is unclear.
3	Play any segment, then remove it from the page.	Y	15	2/2	Needs indicator for which segment is playing and need message for successful add to title list.
4	Play the audio, then pause it, skip forward 30 seconds and start the audio track playing again.	Y	11	6/1	Liked the simplicity of use.

Last Notes: change add and remove "title" buttons to be named segment for clarity, More responsiveness needed.
